## PROJECTS

### AI-Integrated Project Collaboration Platform 🐉

- Developed a full-stack chat application with features like team/project-based group messaging and secure authentication.
- Integrated **Google Gemini API** as an AI assistant (@ai command) that processes user queries and generates relevant project structures automatically.
- Built robust backend APIs and implemented real-time communication using Socket.io with efficient state management.
- Technologies Used:** MongoDB, Express.js, React.js, Node.js, Gemini API, Socket.IO, Tailwind CSS

### E-Commerce Web Project

- Built a full-stack e-commerce platform with secure authentication, payment integration, and optimized backend for 40% faster load times.

## TRAINING/INTERNSHIP

### MERN Stack Trainee

Codec Technologies Pvt. Ltd. • Remote

Jun 2025 – Aug 2025

*Mumbai, Maharashtra*

- Hands-on training in **MERN Stack (MongoDB, Express.js, React.js, Node.js)** through real-world projects.
- Learning to build and deploy full-stack applications using **REST APIs** and modern front-end tools like **React & TailwindCSS**.
- Practicing version control with **Git & GitHub**, and enhancing debugging and backend integration skills.

## CERTIFICATES

- C++ Certificate - Code360 by Coding Ninjas
- Hackathon Participant - Hack Arya Verse 2025
- Hero Talent Search 2019 - Hero MotoCorp CSR Initiative
